PROFESSIONAL EXPERIENCE

- 2014–** **Faculty, School for the Future of Innovation in Society**
Arizona State University, Tempe, AZ
Research Professor (2021–present)
Co-director, Center for Innovation in Informal STEM Learning (2017–present)
Associate Research Professor (2014–2021)
Collaboratively lead a research center that investigates how people learn science, technology, engineering, and math (STEM) throughout their lifetimes: at school, at home, at work, and in the community. Partner across the university and with local, state, and national organizations to advance education, research, and practice related to informal and lifelong learning. Implement public engagement and professional development efforts that bring together multiple and diverse groups, including educators, publics, and experts, to understand our world and shape the future.
- 2017–** **Director, National Informal STEM Education Network**
Direct a national network of 700+ active organizations and 10,000+ professionals, located in all 50 states and several US territories, that engages over 17 million people each year in informal STEM learning. Plan, develop, and lead externally funded projects in collaboration with museums, universities, and other organizations.
- 2014–2017** **Director of Special Projects, Science Learning (2015–2017)**
Consultant (2014–2015)
Science Museum of Minnesota, St. Paul, MN
As director of special projects, conceptualized, initiated, and participated in informal STEM learning projects; and developed a sustainability plan for a nationwide network. As a consultant, co-led a strategic planning process for the museum.
- 2013–2014** **Managing Director, ROM Ancient Cultures**
Royal Ontario Museum, Toronto, CANADA
As member of senior management team, developed and coordinated long-term programs, communications, projects, exhibitions and partnerships that supported the mission and goals of the Centre for Ancient Cultures.

2005–2012 Director of National Collaborations (2009–2012)
Director/Manager of Education (2005–2009)
Sciencenter, Ithaca, NY

As director of national collaborations, led externally funded projects in partnership with multiple organizations nationwide and served as a member of the leadership group for national network of universities and museums. As director/manager of education, led department and supervised staff and volunteers responsible for public programs, school programs, afterschool programs, camps, and outreach programs; supervised, developed, evaluated, and delivered programs and exhibits; and directed and participated in local and national education and exhibition projects.

2001–2005 Exhibits Group Manager (2004–2005)
Project Manager and Exhibit Area Manager (2001–2003)
Exploratorium, San Francisco, CA

As exhibits group manager, supervised staff and volunteers that developed, fabricated, and maintained interactive science museum exhibits at one of the largest and most influential science centers in the world. As project manager, oversaw all aspects of exhibit development projects, including workflow, budget, and reporting. As area manager for Matter/World and Sound & Hearing, planned, developed, and implemented projects and ensured the safe installation and operation of exhibits on the museum floor.

1998–2000 Project Director
Acoustiguide Worldwide, New York, NY

Led the creative planning, development, and production of audio tours for art, history, natural history, science and other types of museums across the US (full-time and part-time).

1999–2000 Educator
American Museum of the Moving Image, Astoria, NY

Delivered educational programs, demonstrations, and tours for schools and groups (part-time).

1987–1992 Guest Services Staff
Cornell Botanic Gardens, Ithaca, NY

Provided information to visitors of the gardens, natural areas, and arboretum (part-time).

EDUCATION

- 2002** **PhD, Anthropological Archaeology**
- 1997** **MA, Anthropological Archaeology**
New York University, New York, NY
Investigated the development and change through time of complex societies. Masters thesis studied social status in Viking Age Scandinavia and dissertation focused on the economy of Volterra, Italy from the Etruscan to late antique periods.
- 1994** **BA, Cultural Analysis of Arts**
College Scholar Program, College of Arts and Sciences
Cornell University, Ithaca, NY
Graduated *summa cum laude* and with distinction in all subjects. Senior honors thesis examined the changing social, cultural, and political meaning of a Tlingit totem pole that was removed from the northwest coast by the Harriman Expedition and brought to Cornell University (since repatriated).

FELLOWSHIPS, HONORS & AWARDS

- 2022** **Fulbright Specialist, Finland**
Fulbright Foreign Scholarship Board
- 2017** **Distinguished Contributions to STS Making & Doing Award, People's Choice**
Society for Social Studies of Science (4S)
- 1994–1999** **Henry Mitchell MacCracken Fellowship**
New York University
- 1999–2000** **Foreign Language and Area Studies Fellowship**
United States Department of Education
- 1997** **Bert Salwen Memorial Fellowship**
Supporting fieldwork
New York University
- 1996** **Bea Loveseth Memorial Prize**
Recognizing the best student paper
Chacmool Archaeology Conference, University of Calgary
- 1994** **Phi Beta Kappa**
National honor society
Cornell University
- 1994** **Merrill Presidential Scholar**
Recognizing the university's most outstanding seniors
Cornell University

GRANTS

Note that it is not customary for museums to allocate recognition; as a result, this figure is only provided for federally funded ASU awards and subwards.

External funding – current

1. **University investigator.** *Explore Science: Destination Moon.* NASA #80NSSC21M00082, PI M. Kortenaar, \$1,000,000 award with \$15,000 consulting fee to ASU, 1/1/2021–12/31/2022, Science Museum of Minnesota in partnership with the NISE Network. As ASU investigator, I provide strategic guidance on the development of an interactive exhibit component and its distribution through the Network.
2. **University investigator.** *Dream Tomorrow Today, 2.0.* IMLS #MA-249635-OMS-21, PI M. Doby, \$95,737 award with \$12,000 in consulting fee to ASU, 10/2021–10/2022, DoSeum. As ASU investigator and project partner, I provide content guidance on the development of an interactive exhibition focused on futures thinking and innovation.
3. **Principal investigator.** *Barbara Gill Civic Science Fellow: New Directions for Neuroscience Public Engagement Through a Partnership Between NISE Network's Changing Brains Initiative, Dana Foundation, and the Civic Science Fellows Program.* Dana Foundation, \$335,000, 9/1/2021–8/30/2022, Arizona State University in collaboration with the National Informal STEM Education Network. As PI, I oversee all aspects of the project, including mentoring the Civic Science Fellow, facilitating collaborations with diverse collaborators and stakeholders, and directing the development and evaluation of pilot public engagement experiences. Recognition: 100% (\$335,000).
4. **Fulbright Specialist.** *Shared Learning to Shape an Inclusive Future.* Heureka, The Finnish Science Centre and the Finnish Science Centre Association, 5/2022–6/2022. As a specialist, I collaborate with eight science museums in Finland to identify innovative ways to engage the public in learning about sustainable futures and successful ways to build science center capacity through professional networks and associations.
5. **Principal investigator.** *SciAct STEM Ecosystems to Broaden Participation in Authentic STEM Learning: Connecting Subject Matter Experts, Communities, and Learners of All Ages.* NASA, \$4,945,885, 1/1/2021–12/31/2025, Arizona State University in collaboration with University of Alaska Fairbanks, Southwestern Community College, and Museum of Science. As PI, I oversee all aspects of the project, including synthesizing evidence-based principles, strategies, and practices for broadening participation in ways that take advantage of NASA's unique assets and subject matter experts; creating processes, training, and resources to support their implementation across NASA's Science Activation (SciAct) program; and facilitating the development and strengthening of STEM ecosystems within SciAct projects and across the SciAct

- portfolio. Recognition: 50% (\$2,472,942.50).
6. **University investigator.** *Build a Mars Habitat: Survive and Thrive*. NASA #80NSSC20M0030, PI E. Kruszka, \$1,000,000 award with \$20,000 consulting fee to ASU, 1/1/2021–12/31/2022, Science Museum of Minnesota in partnership with the NISE Network. As ASU investigator, I provide strategic guidance on the development of an interactive exhibit component and its distribution through the Network.
 7. **Co-principal investigator.** *Advancing Refugee Youths' STEM and Social Capital Through Family-Focused Learning*. NSF #2003126, PI E. Judson, \$299,807, 1/1/2021–12/31/2022, Arizona State University. My role is to provide expertise and guidance on informal STEM education design and practices, particularly related to diversity, equity, access, and inclusion. Recognition: 13% of ASU award (\$38,974.91).
 8. **Principal investigator.** *Sustainable Museums: Professional Development to Support Fieldwide Capacity in Practice, Partnerships, and Education for Sustainability*. IMLS #MG-245910-OMS-20, PI R. Ostman, \$431,443, 9/1/2020–8/31/2023, Arizona State University in partnership with the NISE Network. As PI, I provide overall direction for this project, designed to build capacity in sustainability for education across the museum field through a blended professional development experience and an ongoing community of practice. Recognition: 50% of ASU award (\$215,721.50).
 9. **Senior personnel.** *Citizen Science, Civics, and Resilient Communities: Increasing Resilience Through Citizen-Created Data, Local Knowledge and Community Values*. NOAA #NA18SEC0080008, PI D. Sittenfeld, \$500,000 total, \$94,941 ASU subaward, 10/1/2018–9/30/2021, Museum of Science in partnership with Arizona State University and the NISE Network. I participate in the implementation of citizen forums by Network partners, professional development, and project dissemination. Recognition: 33% of ASU subaward (\$31,330.50).
 10. **Co-investigator.** *The Moon and Beyond: An Immersive Game for STEM Learning in Museums and Planetariums*. NASA #80NSSC18K1219, PI C. Humphrey, \$749,582 total, \$184,891 ASU subaward, 1/1/2019–12/31/2021, Arizona Science Center in partnership with Arizona State University and NISE Network. As co-investigator, I directed the development of an educational game focused on missions to the Moon, which will be implemented by 350 NISE Network partners across the United States. Recognition: 50% of ASU subaward (\$92,445.50).
 11. **Co-investigator.** *Space and Earth Informal STEM Education*. NASA #NNH15ZDA004C and #NNX16AC67A, PI P. Martin, \$15,760,114 total, \$11,275,782 ASU award at time of transfer in 2017 plus \$611,331 ASU subaward in 2015, 1/1/2015–12/31/2020, Arizona State University in collaboration with NASA and NISE Network (originally awarded to Science Museum of Minnesota and transferred to ASU in 2017). Continuation of #NNX16AC67A, PI P. Martin, \$3,498,785, 1/1/2021–12/31/2021, Arizona State University in collaboration with NASA and NISE Network. This large Network initiative develops and distributes STEM educational products to hundreds of

informal learning organizations and provides professional development for informal educators. As co-I and member of leadership team, my role includes directing the public engagement efforts of the project and participating in professional development and dissemination activities. Recognition: 50% of ASU continuation in 2020 (\$1,749,392.50); 45% of ASU award in 2017 (\$5,074,101.90); 90% of ASU subaward in 2015 (\$550,197.90).

External funding – completed

1. **Co-principal investigator.** *ChemAttitudes: Using Design-Based Research to Develop and Disseminate Strategies and Materials to Support Chemistry Interest, Relevance, and Self-Efficacy.* NSF #1612482, PI L. Bell, \$2,930,748 total, \$111,225 ASU subaward, 10/1/2016–3/31/2021, Museum of Science in partnership with American Chemical Society and NISE Network. ChemAttitudes uses innovative approaches to developing and studying informal science learning. I serve on the leadership team, co-direct the educational program development through a design-based research process, and participate in professional development and dissemination activities. Recognition: 85% of ASU subaward (\$94,541.25).
2. **Co-principal investigator.** *Increasing Learning and Efficacy about Emerging Technologies through Transmedia Engagement by the Public in Science-in-Society Activities (Frankenstein200).* NSF #1516684, PI E. Finn, \$2,953,905, 8/1/2015–7/31/2021, Arizona State University in partnership with NISE Network. The Frankenstein200 project is creating, distributing, and studying a set of three integrated activities that involve enduring science-in-society themes, as explored in Mary Shelley's novel Frankenstein. As co-PI, my role includes leading the development of museum products and partnerships and participating in research, evaluation, and dissemination. Recognition: 10% (\$295,390.50).
3. **Senior personnel.** *Sustainability in Science & Technology Museums.* Rob and Melani Walton Foundation, \$175k subaward, 6/1/2015–5/31/2018 and \$740,000 subaward, 10/1/2018–9/30/2020, Arizona State University. The first phase of this project focused on increasing the capacity of museum educators to engage museum audiences in learning about sustainability. As project director for the sustainABLE activity kits, I led the development and distribution of a pilot set of hands-on activities and associated professional resources, distributed to 75 organizations in 2016 and used in ongoing professional development in 2017 and beyond. The second phase of this initiative focuses on using museum capacity to engage communities around the world in productive conversations about sustainable futures. As project director for the museum initiative, I lead the development of public engagement materials, professional resources, and a global network focused on sustainability in informal STEM learning environments.
4. **Senior personnel.** *Planning and Partnerships Conference for Neuroscience Public Engagement.* Kavli Foundation, \$89,705, PI J. Das, 2018, The Franklin Institute. The project held a strategic planning conference, produced a landscape study of

- neuroscience public engagement efforts, and developed tools to facilitate discussion about ethics among neuroscientists. I served as a member of the core planning group and contributed to the meeting and resulting white paper.
5. **Co-principal investigator.** *Libraries as Community Hubs for Citizen Science*. IMLS, \$249,900, PI D. Cavalier, 11/1/17–10/31/18, Arizona State University. As co-PI, I provided guidance on developing and evaluating citizen science toolkits distributed through public libraries and planning for nationwide scaling of project activities. Recognition: 10% of ASU award (\$24,999.40).
 6. **Senior personnel.** *Maximizing Collective Impact Through Cross-Sector Partnerships: Planning a SENCER and NISE Net Collaboration*. NSF #1612376, PI W. Burns, \$149,987, 9/15/2016–9/14/2017, National Center for Science and Civic Engagement, SUNY Stony Brook, in partnership with the NISE Network. This planning project with the explored ways to leverage national networks to encourage civic engagement activities. My role included participating in planning and dissemination.
 7. **Personnel.** *SusChEM: Focus on Sustainability—Integrated Approaches to Materials for Sustainable Development*. NSF #1619487, PI A. White, \$73,334, 3/15/2016–2/28/2018, University of California Berkeley. SusChEM provided support for special programming and activities focused on sustainable development at the 2016 Materials Research Society Spring Meeting & Exhibit in Phoenix. My role included serving on the sustainability steering committee and co-organizing a symposium supported by the award.
 8. **Senior personnel.** *True Stories Well Told: Using Narrative to Search for Harmonies Between Science and Religion*. John Templeton Foundation, \$871,749, PI L. Gutkind, 9/1/2015–8/3/2018, Arizona State University. This project created dialogue about the relationship of science and religion through a creative nonfiction fellowship and training program, a writing competition, nationwide public events, an online course, and public programming at science museums. As museum liaison, I coordinated the development of public programs in five cities and participated in the project's culminating festival. Recognition: 20% (\$174,349.80).
 9. **Senior personnel.** *Multi-Site Public Engagement with Science – Synthetic Biology*. NSF #1421179, PI L. Bell, \$2,288,713, 10/1/2014–9/30/2018, Museum of Science and NISE Network. This project created hands-on activities and public forums to promote multidirectional dialogue and learning between scientists and members of the public, related to the societal implications of synthetic biology. My role included overseeing the development and distribution of the Building with Biology kit of educational products and professional resources.
 10. **Personnel.** *Networks for Characterizing Chemical Life Cycle: Life Cycle of Nanomaterials (LCnano)*. Environmental Protection Agency / National Science Foundation # RD835580 and EPA STAR program #RD83558001, \$5,000,000, PI P. Westerhoff, 3/19/2014–11/30/2018, Arizona State University with multiple university

partners. This research project characterized the life cycle of a variety of nanomaterials in different product lines. As director of the NISE Network, I coordinated the development and distribution of a hands-on activity to 125 museums and university outreach programs nationwide.

11. **Senior personnel.** *21-Tech: 21st Century Exhibit Facilitators and Personal Mobile Technologies*. IMLS, \$440,000, PI C. McCallum, 10/1/2010–9/30/2013, Children’s Museum of Houston. 21-Tech developed strategies, resources, and supports to integrate mobile apps into exhibition facilitation. As Sciencenter PI, I participated in project planning and oversaw the museum’s development and evaluation activities.
12. **Senior personnel.** *C3: Communicating Climate Change*. NSF #0813135, \$2,998,311, PI W. Staveloz, 9/15/2008–12/31/2012, Association of Science-Technology Centers with multiple collaborating organizations. C3 developed partnerships among STEM-rich organizations to engage public audiences in citizen science projects. As Sciencenter project director, I oversaw the development and implementation of the museum’s activities in partnership with the local school system and the Cornell Lab of Ornithology.
12. **Project director.** *Climate Change Activity Toolkit*. IMLS, \$75,000, PI C. Trautmann, 10/1/2007–9/30/2009, Sciencenter. The toolkit included hands-on activities, portable discovery kits, an interactive public forum, and a museum field trip program. I oversaw the development and implementation of all project deliverables.
13. **Personnel.** *Here to the Ocean*. NOAA, \$750,000, PI C. Trautmann, 6/1/2008–9/30/2012, Sciencenter. Here to the Ocean is a traveling exhibition on watersheds. As project team member, I participated in content development and evaluation.
14. **Personnel.** *DragonFly TV GPS: Investigating the Nanoworld*. NSF#0741749, \$1,982,391, PI R. Hudson, 5/1/2008–4/30/2011, Twin Cities Public Television in collaboration with the NISE Network. DragonFly TV created six episodes for the GPS (Going Places in Science) series to engage a broad and sizeable audience of children, adults, and educators about revolutionary advances in nanoscale science and nanotechnology. As Sciencenter liaison, I participated in the planning and implementation for the episode featuring our museum and programming.
15. **Principal investigator.** *Science Museum Chemistry Programs for School and Family Audiences*. The Henry and Camille Dreyfus Foundation, PI R. Ostman, \$31,000, 1/1/2007–12/30/2010, Sciencenter. This project developed and evaluated hands-on activities, youth programs, and a summer camp framework to engage museum audiences in learning about chemistry. As PI, I directed and managed all aspects of the project.
16. **Senior personnel.** *Nanoscale Informal Science Education Network*. NSF #0532536 and #0940143, \$41,741,754 total award, PI L. Bell, 9/1/2005–2/28/2017, Museum of Science with multiple collaborating organizations. With over 10 years of funding, this center-level grant created a national community of researchers and informal science educators dedicated to fostering public awareness, engagement, and understanding of

nanoscale science, engineering, and technology. As a member of leadership team, I directed the project's public engagement efforts—including exhibits, programs, media, and initiatives in support of diversity, equity, inclusion, and access—and led the transition to an ongoing identity as the National Informal STEM Education Network.

17. **Senior personnel.** *Going APE: Achieving Active, Prolonged Engagement with Science Center Exhibits.* NSF #0087844, \$1,284,590, PI T. Humphrey 06/01/2001–12/31/2005, Exploratorium. Going APE developed and studied hands-on science museum exhibits to encourage extended engagement and inquiry. As project manager, I participated in project leadership, coordinated work, and managed the budget and timeline.
18. **Senior personnel.** *Listening: Making Sense of the Sonic Soup.* NSF #0307925, \$2,098,873, PI T. Humphrey 09/01/2003–8/31/2007, Exploratorium. The project developed and studied hands-on science museum exhibits and related programming to encourage close listening and experimentation. As project manager, I participated in project leadership, coordinated work, and managed the budget and timeline.

Internal funding – current

1. **Co-investigator.** *Flavor stories: An affective-cognitive approach to breaking down generational and cultural barriers to sustainable futures.* Global Futures Laboratory & College of Global Futures Collaborative Grants Program, \$9,999.33. PI C. Spackman, 6/1/21–5/30/22. The project invites adults to design multi-layered candies that serve as edible narratives to communicate potential climate futures.
2. **Senior personnel.** *Climates of Inequality: Stories of Environmental Justice.* Humanities Action Lab, 2017–2022. The international coalition for public history co-created a traveling exhibition and associated programming with over 20 communities around the world. I participated in project planning and oversight for the collaboration among ASU faculty and students, the Arizona Heritage Center, and additional community partners.

Internal funding – completed

1. **Project co-director.** *Becoming Human.* School for the Future of Innovation in Society in collaboration with the Institute of Human Origins, 2017–2018. This collaboration across Arizona State University created a suite of materials to engage families, teachers, and students in hands-on learning about human evolution. I co-led the development of the public engagement materials.
2. **Project director.** *ROM Game Jam!* Royal Ontario Museum, University of Toronto, and other collaborating organizations, 2013–2015. The ROM Game Jam includes a variety of programs related to game development, including annual event where game development teams work intensively over a weekend to create digital games around a theme related to the museum's research and collections and game development programs for schools. As the founder and original project director, I worked with a cross-institutional team to conceive, plan, and implement this innovative initiative.

3. **Project manager.** *Sound & Hearing.* Capital Campaign, \$750,000, 2001–2003, Exploratorium. I participated in project leadership, coordinated work, and managed the budget and timeline for a project that reconceived and refurbished hands-on physics exhibits.

MAJOR PRODUCTS

Website

1. **nisenet.org** is the website for NISE Network professional partners, including educators and scientists. It includes an online digital library of educational materials and professional development resources for those working in the field of informal science education: <https://www.nisenet.org/>

Programs and activities

1. **Building with Biology** hands-on activity kits designed to create mutual learning among scientists and members of the public related to synthetic biology and genetic engineering. The kit includes six hands-on activities, one public forum, videos, posters, and educator training materials, distributed to 200 communities across the US in 2016. Materials are available for free download: <https://www.nisenet.org/building-with-biology-kit>
2. **Explore Science: Earth & Space** activity kits exploring Earth and space science and providing hands-on opportunities to participate in STEM processes and practices. From 2017 to 2020, 1,200 kits were distributed to around 425 NISE Network partner organizations, engaging 12.7 million people in authentic STEM learning. Each kit includes around 10 hands-on activities, videos, posters, and educator training materials, available for free download: <https://www.nisenet.org/earthspacekit>
3. **Explore Science: Let's Do Chemistry** is a kit of hands-on activities designed to support learners' interest, sense of relevance, and feelings of self-efficacy related to chemistry. In 2018, 250 communities across the United States used the kits as part of National Chemistry Week events and other programming. The kit materials are available for free download: <https://www.nisenet.org/chemistry-kit>
4. **Explore Science: Zoom into Nano** resource kits focused on building and strengthening partnerships among museums and other community organizations. In 2016, 100 NISE Network partners used the educational materials and professional resources to form local collaborations to reach audiences traditionally underserved by STEM educational institutions and underrepresented in STEM fields. The kit includes four modules with 3–6 activities each, as well as educator training materials, available for free download: <https://www.nisenet.org/explorescience-nano>
5. **Frankenstein200** hands-on activity kits and alternate reality game focused on promoting creativity, scientific exploration, and consideration of responsible innovation. In 2018, 50 NISE Network partners used the project's educational materials and

professional resources in programming celebrating the 200th anniversary of the publication of Mary Shelly's *Frankenstein*. The activity kit materials are available for free download: <https://www.nisenet.org/frankenstein>

6. **Moon Adventure** is a collaborative game where players work together to solve a series of hands-on challenges related to living and doing research on the moon, grounded in real science. The game will be distributed to 350 NISE Network partners in fall 2020. The materials are available for free download: <https://www.nisenet.org/moongame>
7. **NanoDays** hands-on activity kits for informal STEM education. From 2009 to 2015, 1,650 NanoDays kits were distributed to 460 informal learning institutions across the United States, engaging 8 million people in learning about nanoscale science, engineering, and technology. Each kit includes around a dozen activities, related media, and educator training materials. Additional kits created on the NanoDays model include *Building with Biology* (2016), *SustainABLE* (2016), *Explore Science: Earth & Space* (2017, 2018, 2019, 2020), *Frankenstein200* (2017), and *Explore Science: Let's Do Chemistry* (2018). As a result of the wide distribution and use of these kits over 10+ years, the NanoDays type of hands-on activity is widespread and influential in science centers and children's museums. The materials are available for free download: <https://www.nisenet.org/nanodays/archive>
8. **Nanoscale Informal Science Education Network** collection of public programs. The Nanoscale project's program development group created over 100 public programs designed for use in museum settings, including theater presentations, discussion-based forums, and demonstrations. The programs were distributed to NISE Network partners beginning in 2008. In addition to their public impact, the Nanoscale program effort has had a substantial impact on professional practices within the NISE Network. Program materials are available for free download: <https://www.nisenet.org/>
9. **sustainABLE** hands-on activity kits. Beginning in 2016, these kits have been distributed to over 200 museums through the NISE Network and Arizona State University's fellowship program for museum professionals. It includes six hands-on activities and supporting professional resources, available for free download: <https://www.nisenet.org/sustainable-kit>
10. **Sustainable Futures** collection of public programs includes games, activities connecting sustainability and creativity, and other formats. Each program is available as a free download, including a complete set of digital resources, instructions for preparing the program supplies, print-your-own graphics to use with the public, and training materials: <https://www.nisenet.org/sustainable-futures>
11. **Science and Religion** collection of public programs are based on creative nonfiction stories that provide opportunities for reflection and conversation about the relationship between science and religion. The materials are available online: <https://scienceandreligion.thinkwritepublish.org/resources/>

Exhibitions and media

1. **Going APE (Active, Prolonged Engagement)** produced a collection of 30 permanent exhibits at the Exploratorium that support self-directed, extended inquiry into the physical sciences. More information is available online: https://www.exploratorium.edu/vre/ape/ape_intro.html
2. **Listen: Making Sense of Sound** is a collection of permanent exhibits at the Exploratorium that allow visitors to focus on subtle and profound aspects of hearing, experiment with new ways of listening deeply and carefully, and think about how others hear the world. More information is available online: <https://www.exploratorium.edu/listen/>
3. **Nano**, a 500 square foot exhibition produced in 93 copies, has been on long-term display at over 150 sites beginning in 2012. The exhibition is conservatively estimated to engage 10 million people each year in learning about nanoscale science, engineering, and technology. In addition to its broad reach, evaluation shows that the exhibition has a surprisingly long dwell time. Graphics, educational materials, and related resources are available for free download: https://www.nisenet.org/catalog/exhibits/nano_mini-exhibition
4. **Nanotechnology: What's the Big Deal?** is a collection of 12 hands-on exhibit components that were permanently installed in several museums across the US. Information is available online: <https://www.nisenet.org/catalog/nanotechnology-whats-big-deal-exhibition>
5. **DIY nano** is a prize-winning app that features videos and at-home activities that explore nanoscale science, engineering, and technology. The app has been featured in the Apple store and was downloaded over 250,000 times: <https://apps.apple.com/us/app/diy-nano/id520611568>. The activities are also collected in a book: <https://www.nisenet.org/catalog/diy-nano-book>
6. **Sun, Earth, Universe** is a 600 square foot exhibition produced in 52 and scheduled for long term display at over 100 organizations beginning in 2019. The exhibition is conservatively estimated to engage 7 million people each year in learning about Earth and space science, including groups that are underserved by STEM institutions and underrepresented in STEM fields. In addition to its broad reach, evaluation supports several dimensions of STEM learning, including content knowledge, sense of relevance, and identity. Graphics, educational materials, and related resources are available for free download: <https://www.nisenet.org/catalog/sun-earth-universe-exhibition>
7. **Climates of Inequality: Stories of Environmental Justice** is a multimedia installation created by a coalition of students, educators, and community leaders in over 22 cities across the US and around the world. As a traveling exhibit and digital platform with related programming, *Climates of Inequality* provides multiple ways to learn about environmental issues affecting various communities, the historical roots of

these issues, and strategies to transition from extractive environments to generative ones. The project launched in Newark, NJ, in October 2019 and is currently traveling to each city represented in the exhibit. Information is available online:

<http://climatesofinequality.org/>

Professional development

1. **Nano & Society** professional development workshops, training resources, and educational products to increase capacity of informal educators to engage public audiences in meaningful conversations about current science and technology and their relationship to society. Around 100 educators participated in a series of workshops in 2012: <https://www.nisenet.org/events/other/nano-society-workshop>
2. **Sustainability Fellowship** professional development workshops and resources to support museum professionals in carrying out sustainability projects at their organizations. Over 200 educators participate in a series of workshops and community of practice 2019–2022: <https://www.nisenet.org/sustainability-fellowship>
3. **NISE Network partner meetings** include regional (2013, 2012, 2011, 2010, 2008–2009) and nationwide meetings (2019, 2015, 2009, and 2007) with hundreds of participants: <https://www.nisenet.org/event-type/network-wide-and-regional-meetings>

WORKSHOPS, PRESENTATIONS & POSTERS

The chair or presenting author is listed first; the others are typically listed in the order of presentation.

Professional Conferences

1. Thoma Emmons, C. (Chair), Foutz, S., Ostman, R., & Zalut, L. (2021). *Productive discomfort: Exploring sensitive subject matter in evaluations*. Session presented at the virtual meeting of the Visitor Studies Association.
2. Kollmann, L. (Chair), Anderson, A., Mesiti, L. A., Todd, K., & Ostman, R. (2021, May). *How to make your museum great: Evaluation your team can do to improve your educational offerings*. Intensive workshop presented at the virtual meeting of the Association of Children's Museums.
3. Ostman, R. (Chair), Johnston, R., Laubenthal, D., Weller, N. & Wouk, K. (2020, October). *Sustainable futures: Science centers and community partners working together for people and the planet*. Preconference workshop presented at the virtual meeting of the Association of Science and Technology Centers.
4. Ostman, R. (Chair), Flynn, C., Frias, D., Haahr, N., Jorge, M., Porcello, D. & Weller, N. (2020, August 26). *Sustainable futures: Museums and communities working together*.

Webinar presented for the Association of Children's Museums.

5. Zirulnik, M. (Presenting author), Ostman, R., & McCullough Cosgrove, J. (2019, November). Science and religion. Paper presented at the Religious Communication Association, Baltimore, MD.
6. Bell, J. (Chair), Barriault, C., Besley, J., Ostman, R., & Yeo, S. (2019, September). *Informal STEM Education and Science Communication: Branches of the Same Tree, Invasive Species, or Complementary Niches in an Ecosystem?* Session presented at the meeting of the Association of Science and Technology Centers, Toronto, ON, Canada.
7. Ostman, R. (Chair), Colton, J., Custer, S., Das, J., Martin, P., & Porcello, D. (2019, September). *Moonshots in the Museum: Creative Ways to Engage Museum Audiences in Big Challenges*. Session presented at the meeting of the Association of Science and Technology Centers, Toronto, ON, Canada.
8. Ostman, R. (Chair), Bishop, P., Doby, M., & Tankersley, J. (2019, September). *Playing with the Future: Creating Exhibits and Programs that Immerse Visitors in Futures Thinking*. Preconference workshop presented at the meeting of the Association of Science and Technology Centers, Toronto, ON, Canada.
9. Sittenfeld, D. (Chair), Kollmann, E., Galvan, P., Hostetler, E., & Ostman, R. (2019, September). *Let's Do Chemistry: Designing and Facilitating Chemistry Activities to Increase Interest, Relevance, and Self-efficacy*. Preconference workshop presented at the meeting of the Association of Science and Technology Centers, Toronto, ON, Canada.
10. Velazquez, H. (Lead), Haupt, G., Petrich, M. & Ostman, R. (2019, September). *Tinkering with Maker and Chemistry Activity Facilitation Frameworks*. Poster presented at the meeting of the Association of Science and Technology Centers, Toronto, ON, Canada.
11. Ostman, R. (2019, June). Sustainability in Science & Technology Museums. In C. Paca (Convener), *Project showcase*. Presentation at the meeting of Ecsite, Copenhagen, Denmark.
12. Ostman, R. (Chair), Herring, B., Jackson, A. & Lindsey, C. (2019, May). *Creating fun and guiding learning! Techniques for excellent facilitation*. Session presented at the meeting of the Association of Children's Museums, Denver, CO.
13. Ostman, R. (2019, February). Putting research into practice to support positive attitudes about learning chemistry. In L. Bell (Chair), *Scaling Up Research-Based Applications for Better Informal Science Communication*. Symposium presented at the meeting of the American Association for the Advancement of Science, Washington, DC.
14. Ostman, R. (Chair), Colton, J., Hostetler, E., Long, S., Porcello, D., Sava, M., & Zirulnik, M. (2018, September). *True stories and thoughtful conversation: Exploring science and religion in museum programs*. Session presented at the meeting of the Association of Science-Technology Centers, Hartford, CT.

15. Ostman, R. (Chair), Cavalier, D., Colton, J., Cox, T., Grinnell, C., Hurst, A., LaConte, K., & La Valle, D. (2018, September). *Museum and library partnerships: Hands-on STEM learning for everyone*. Session presented at the meeting of the Association of Science-Technology Centers, Hartford, CT.
16. Ostman, R., McCullough Cosgrove, J., & Zirulnik, M. (2018, July). Engaging with values and beliefs: Programs exploring science and religion. Poster presented at the meeting of the Visitor Studies Association, Chicago, IL.
17. Jackson, A. (Chair), Herring, B., Martin, P., Ostman, R., & Thompson, N. (2018, May). *Best program ever! Tools and techniques to create great programs. Parts 1 and 2*. Two-part workshop conducted at the Association of Children's Museums, Raleigh, NC.
18. Ostman, R. (2018, May). Games and STEM learning. In H. Wechsler (Chair), *What do games get us? Exploring learning research to inform our practice*. Session conducted at the American Alliance of Museums, Phoenix, AZ.
19. Ostman, R. (Chair), & Chu, S. (2018, April). *Gaming in museums: How to level up your museum's public engagement*. Workshop conducted at the meeting of Museums and the Web, Vancouver, BC.
20. Ostman, R. & Wylie, R. (2018, April). *Frankenstein200: Transmedia learning in creativity and responsible innovation*. Demonstration session conducted at the meeting of Museums and the Web, Vancouver, BC.
12. Ostman, R. (2017, October). Data-based decision making in the NISE Network. In C. Trautmann (Chair), *The anti-fragile museum*. Session conducted at the meeting of the Association of Science-Technology Centers, San Jose, CA.
13. Ostman, R. (2017, October). Frankenstein200: Increasing learning and efficacy about emerging technologies through transmedia engagement. In J. Burba (Chair), *Happy birthday, Frankenstein!* Session conducted at the meeting of the Association of Science-Technology Centers, San Jose, CA.
14. Ostman, R. (2017, October). Museum and community partnerships. In R. Ostman (Chair), *STEM community partnerships: Strategies and resources for developing collaborations and reaching new audiences*. Session conducted at the meeting of the Association of Science-Technology Centers, San Jose, CA.
15. Ostman, R. (2017, September). Frankenstein200: Engaging the public in transmedia learning. In R. Wylie (Chair), *Narratives of science and scientists: Heroes, monsters, and victims*. Session conducted at the meeting of the Society for Social Studies of Science, Boston, MA.
16. Bennett, I., Long, S., Ostman, R. (Chair), Sittenfeld, D., & Wetmore, J. (2017, September). STS approaches to public engagement with science: Synthetic biology. In *Making & Doing*. Session conducted at the meeting of the Society for Social Studies of Science, Boston, MA.

17. Ostman, R. (2017, May). Crash course in program development. In B. Herring (Chair), *Best program ever! Tools and techniques to create great programming*. Session conducted at the meeting of the Association of Children's Museums, Pasadena, CA.
18. Ostman, R. (2017, May). Museum and community partnerships. In R. Ostman (Chair), *Engaging all audiences: Partnerships and programs to reach diverse audiences*. Session conducted at the meeting of the Association of Children's Museums, Pasadena, CA.
19. Bell, L., Martin, P., McCarthy, C., & Ostman, R. (2016, September). *New national collaborative network provides opportunities for US museums and science centers on STEM topics*. Paper presented at the meeting of the Association of Science-Technology Centers, Tampa, FL.
20. Ostman, R. (2016, September). NISE Network. In J. Bell (Chair), *Evolving landscape of opportunity: Informal education and STEM research working together*. Session conducted at the meeting of the Association of Science-Technology Centers, Tampa, FL.
21. Beard, B., Finn, E., Lande, M., Ostman, R., & Wylie, R. (2016, May). *Monster collaborations: approaching the Frankenstein bicentennial through the humanities and informal STEM learning*. Paper presented at the meeting of the Humanities, Arts, Science, and Technology Alliance and Collaboratory, Tempe, AZ.
22. Ostman, R. (2016, May). Museums and community partnerships. In R. Ostman (Chair), *Museums and community partnerships: Leveraging resources and increasing impact*. Session conducted at the meeting of the Association of Children's Museums, Stamford, CT.
23. Ostman, R. (2016, May). NISE Net Museum and Community Partnerships project. In C. McCarthy (Chair), *Tools for collaboration: Increasing your museum's local impact through partnerships*. Session conducted at the meeting of the Association of Children's Museums, Stamford, CT.
24. Ostman, R. (2016, May). *Public outreach at science museums*. Paper presented at the meeting of the Materials Research Society, Phoenix, AZ.
25. Martin, P., Ostman, R. (Chair), & Patten, D. (2016, April). *Using principles and tools from gaming to create innovative museum experiences*. Session conducted at the meeting of Museums and the Web, Los Angeles, CA.
26. Abelson, J., Iguier, I., Ostman, R., & White, A. (Chair). (2016, March). *Materials for sustainable development—Integrated approaches*. Symposium conducted at the meeting of the Materials Research Society, Phoenix, AZ.
27. Bennett, I., Ostman, R. (Chair), & Wetmore, J. (2015, October). Nano and society: Engaging the public in science, technology, and society. In *Making & Doing*. Session conducted at the meeting of the Society for Social Studies of Science, Denver, CO.

28. Ostman, R. (Chair) (2015, October). *ASTC Game Jam! Using game thinking to transform science center experiences*. Paper presented at the meeting of the Association of Science-Technology Centers, Montreal, Canada.
29. Ostman, R. (2015, October). Games and programs. In S. Long (Chair), *Why should I care? Making science center programs relevant to visitors*. Session conducted at the meeting of the Association of Science-Technology Centers, Montreal, Canada.
30. Ostman, R. (2015, October). NISE Network public engagement. In C. Buedrie (Chair), *Social systems and governance*. Symposium conducted at the meeting of the Sustainable Nanotechnology Organization, Portland, OR.
31. Martin, P., Ostman, R. (Chair), & Patten, D. (2015, September). *Transforming museums through gaming*. Workshop conducted at the meeting of MuseumNext, Geneva, Switzerland.
32. Ostfeld, K., Ostman, R., & Thompson, N. (2015, May). *Gaming the way to learning around the world*. Session conducted at the meeting of the Association of Children's Museums, Indianapolis, IN.
33. Ostman, R. (2015, May). NISE Network. In L. Bell (Chair), *Partnerships with science museums for public engagement and science communication professional development for early career scientists*. Session presented at the meeting of the National Alliance for Broader Impacts Summit, Madison, WI.
34. Barnes, H., Bennett, I., Dilley, K., Herring, B. (Chair), Long, S., Ostman, R., & Wetmore, J. (2014, October). *From demonstration to conversation: Engaging visitors in technology and society*. Preconference workshop conducted at the meeting of the Association of Science-Technology Centers, Raleigh, NC.
35. Ostman, R. (2014, October). *Game design*. In R. Ostman (Chair). *Can gaming show us new ways to create exhibitions?* Session presented at the meeting of the Association of Science-Technology Centers, Raleigh, NC.
36. Ostfeld, K., Ostman, R. (Chair), & Moynihan, N. (2014, May). *Gaming the way to learning*. Session conducted at the meeting of the Association of Children's Museums, Phoenix, AZ.
37. Ostman, R. (2014, March). *ROM Game Jam! Foretelling the past*. In R. Ostman (Chair), *Centres of Discovery at the ROM: A catalyst for new ideas about community engagement*. Session conducted at the meeting of the Canadian Museums Association, Toronto, Canada.
38. Ostman, R. & Schippers, B. (2013, October). *Lessons from the ROM Game Jam and ancient arcade*. Paper presented at The Interactive and Games Conference, Gamercamp (Canada's Game Festival), Toronto, Canada.
39. Ostman, R. (2013, May). Evaluation and decision making: NISE Net. In R. Korn (Chair), *Evaluation as learning*. Session conducted at the meeting of the American Alliance of

Museums, Washington, DC.

40. Ostman, R. (2013, February). Nanotechnology and society: Building societal and ethical implications into informal education. In L. Bell (Chair), *In the eye of the beholder: Engaging the public in societal implications of science*. Symposium conducted at the meeting of the American Association for the Advancement of Science, Boston, MA.
41. Ostman, R. (2012, December). *Engaging the public in the societal, ethical, and environmental implications of nanotechnology*. Paper presented at the meeting of the National Science Foundation Nanoscale Science and Engineering Grantees Conference, Arlington, VA.
42. Herring, B. & Ostman, R. (2012, November). Concepts and educational approaches for engaging the public in nanotechnology and society. In K. Chen, R. Nanjundaswamy, & A. Ramirez (Chairs), *Communicating social relevancy in materials science and engineering education*. Symposium conducted at the meeting of the Materials Research Society, Boston, MA.
43. Barnes, H., Dilley, K., Herring, B., Jackson, A., Kusiak, F., Liljeholm, A., Long, S., Ostfeld, K., Ostman, R. (Chair), Pattison, S., & Thate, K., (2012, October). *Really great programming: Best practices in development, delivery, and evaluation*. Preconference workshop conducted at the meeting of the Association of Science-Technology Centers, Columbus, OH.
44. Bowman, S., Kusiak, F., Nardone, E., Ostman, R. (Chair), Porcello, D., (2012, October). *There's an app for that! Developing apps for science museums*. Session conducted at the meeting of the Association of Science-Technology Centers, Columbus, OH.
45. Ostman, R. (2012, October). NanoDays. In L. Bell (Chair), *Adding unfamiliar current research to science museums*. Session conducted at the meeting of the Association of Science-Technology Centers, Columbus, OH.
46. Ostman, R. (2012, May). Achieving goals related to visitor learning. In R. Ostman (Chair), *Prototyping exhibits for high impact and fun*. Session conducted at the meeting of the Association of Children's Museums, Portland, OR.
47. Ostman, R. (2012, May). 1x20. In Orselli, P. (Chair), *20x20 Portland*. Pecha kucha conducted at the meeting of the Association of Children's Museums, Portland, OR.
48. Ostman, R. (2012, February). Tapping into the resources of the NISE Network. In L. Bell (Chair), *Sharing science with the public: Resources for outreach and informal education*. Symposium conducted at the American Association for the Advancement of Science annual meeting, Washington, DC.
49. Long, S. & Ostman, R. (2011, November). Using theater and film to engage the public in nanotechnology. Plenary paper presented at the meeting of the Society for the Study of Nanoscience and Emerging Technologies, Tempe, AZ.
50. Ostman, R. (Chair). (2011, November). *Demonstrations to engage the public in*

- nanotechnology*. Session conducted at the meeting of the Society for the Study of Nanoscience and Emerging Technologies, Tempe, AZ.
51. Ostman, R. (2011, November). NISE Network. In R. Ostman (Chair), *Engaging the Public in Nanotechnology: Strategies, Approaches, and Resources*. Panel conducted at the meeting of the Society for the Study of Nanoscience and Emerging Technologies, Tempe, AZ.
 52. Barnes, H., Herring, B., Higbee, M., Jackson, A., Kusiak, F., Liljeholm, A., Long, S., Ostfeld, K., Ostman, R. (Chair), & Reich, C. (2011, October). *Really great programming: Best practices in development, delivery, and evaluation*. Preconference workshop conducted at the meeting of the Association of Science-Technology Centers, Baltimore, MD.
 53. Ostman, R. (2011, October). NanoDays. In K. Ostfeld (Chair), *Indie styles that work!* Session conducted at the meeting of the Association of Science-Technology Centers, Baltimore, MD.
 54. Ostman, R. (2011, October). Planning, development, and documentation. In A. Liljeholm (Chair), *Educational program development: Simple best practices for great presentations*. Session conducted at the meeting of the Association of Science-Technology Centers, Baltimore, MD.
 55. Bell, L., Erickson, B., Maynard, A. (Moderator), Ostman, R., & Sutcliffe, H. (2011, September). Risk, uncertainty, and social engagement—How can we do better? Panel conducted at the symposium *Risk, uncertainty and sustainable innovation: New perspectives on emerging challenges*, Risk Science Center, University of Michigan, Ann Arbor, MI.
 56. Ostman, R. (2011, May). *Nano*. In C. McCarthy (Chair), *Creating a comprehensive mini-exhibition*. Session conducted at the meeting of the Association of Children's Museums, Houston, TX.
 57. Ostman, R. (2011, May). *NanoDays: Simple STEM for 21st century learning skills*. Paper presented at the Association of Children's Museums Annual Conference, Houston, TX.
 58. Ostman, R. (2011, May). Sciencenter exhibits and programs. K. Ostfeld (Chair), *Implementing nano in children's museums*. Pre-conference workshop conducted at the Association of Children's Museums annual conference, Houston, TX.
 59. Ostman, R. & G. Zenner Petersen. (2010, November). Content map for informal education in nanoscale science, engineering, and technology. In *Materials education development and outreach: K-grad*. Symposium conducted at the meeting of the Materials Research Society, Boston, MA.
 60. Ostman, R. (2010, October). Discrepant events. In A. Fernandez (Chair), *Wow, I didn't expect that! Powerful techniques for teaching science*. Session conducted at the meeting of the Association of Science-Technology Centers, Honolulu, HI.

61. Ostman, R. (Chair). (2010, October). *Effective partnerships and networks: Making current science relevant*. Session conducted at the meeting of the Association of Science-Technology Centers, Honolulu, HI.
62. Ostman, R. (2010, October). NISE Network: Public engagement in nanoscale science, engineering, and technology. In L. Bell (Chair), *Public engagement and civic discourse: Charting a course for science centers*. Session conducted at the meeting of the Association of Science-Technology Centers, Honolulu, HI.
63. Ostman, R. (2010, October). Sciencenter and NISE Network. In R. Ostman (Chair), *Thinking big when you're a small museum*. Session conducted at the meeting of the Association of Science-Technology Centers, Honolulu, HI.
64. Ostman, R. (2010, May). Current science and global issues. In S. Long (Chair), *Bridging the borders: engaging visitors in global issues through innovative programming*. Session conducted at the meeting of the American Association of Museums, Los Angeles, CA.
65. Ostman, R. (2010, May). *Let's get hands-on with science!* Paper presented at the Association of Children's Museums annual conference, Saint Paul, MN.
66. Ostman, R. (2010, May). Nanotechnology: Small science, big deal. In K. Ostfeld (Chair), *Big thoughts about super-small: Nano in children's museums*. Preconference workshop conducted at the Association of Children's Museums annual conference, Saint Paul, MN.
67. Long, S. & Ostman, R. (2010, March). Nanoscale science demonstrations and activities for K-12 students and museum visitors. In *Informal Education Share-a-Thon*, conducted at the meeting of the National Science Teacher Association, Philadelphia, PA.
68. Ostman, R. (Chair). (2009, November). *Engage any audience: Effective outreach strategies for nanoscience and materials education*. Panel presented at the meeting of the Materials Research Society, Boston, MA.
69. Ostman, R. (Chair). (2009, November). *Innovative ways to connect: University, museum, and public partnerships for nanoscience and materials education*. Panel presented at the meeting of the Materials Research Society, Boston, MA.
70. Goldstein, E. & Ostman, R. (Chairs). (2009, October). *Put the "M" back in STEM*. Session conducted at the meeting of the Association of Science-Technology Centers, Fort Worth, TX.
71. Ostman, R. (Chair). (2009, October). *Creative programming and current science learning*. Session conducted at the meeting of the Association of Science-Technology Centers, Fort Worth, TX.
72. Ostman, R. (2009, October). Creative STEM activities. In K. Ostfeld (Chair), *Indie style gets creative*. Session conducted at the meeting of the Association of Science-

- Technology Centers, Fort Worth, TX.
73. Ostman, R. (2009, October). Dragonfly TV nanosilver investigation. In C. McCarthy (Chair), *Science alliance: Advancing science communication by bridging diverse organizations*. Session conducted at the meeting of the Association of Science-Technology Centers, Fort Worth, TX.
 74. Ostman, R. (Chair). (2009, October). *Public engagement in current science and global issues*. Session conducted at the meeting of the Association of Science-Technology Centers, Fort Worth, TX.
 75. Ostman, R. (2009, October). Professional development for elementary school teachers. In I. Frank & R. Ostman (Chairs), *Big educational impact, small programming resources*. Session conducted at the meeting of the Association of Science-Technology Centers, Fort Worth, TX.
 76. Bell, L., Bennett, I., Kusiak, F., Long, S., Ostman, R., & Wetmore, J. (2009, September). *Nanotechnology and Society*. Demonstrations at the Pacific Science Center and the annual meeting for the Society for the Study of Nanoscience and Emerging Technologies, Seattle, WA.
 77. Manner, M. & Ostman, R. (2009, May). *Dirty hands: The hands-on science impact*. Paper presented at the Association of Children's Museums annual conference, Philadelphia, PA.
 78. Kimber, L. & Ostman, R. (2008, October). *Programs and partnerships on a small budget*. Paper presented at the meeting of the Association of Science-Technology Centers, Philadelphia, PA.
 79. Ostman, R. (2008, October). Applying universal design guidelines. In C. Reich (Chair), *Programs that are inviting and accessible to all*. Session conducted at the meeting of the Association of Science-Technology Centers, Philadelphia, PA.
 80. Ostman, R. (Chair). (2008, October). *Chemistry programs that get great reactions*. Session conducted at the meeting of the Association of Science-Technology Centers, Philadelphia, PA.
 81. Ostfeld, K. & Ostman, R. (Chairs). (2008, October). *Doing Math and Science "Indie-Style."* Session conducted at the meeting of the Association of Science-Technology Centers, Philadelphia, PA.
 82. Silberman, R., Merkel, S., & Ostman, R. (2008, July). *Activities for young children at a science museum*. Paper presented at the Biennial Conference of Chemical Education, Bloomington, IN.
 83. McCarthy, C., Ostfeld, K., & Ostman, R. (2008, May). How nano exhibits and programs can foster play and promote learning. In M. Stafne (Chair). *(Math + Science) x Play = Museum Fun!* Session conducted at the meeting of the Association of Children's Museums, Denver, CO.

84. Ostman, R. (2007, October). Hands-on STEM activities. In K. Ostfeld (Chair). *Doing Science and Math—Indie Style!* Session conducted at the meeting of the Association of Science-Technology Centers, Los Angeles, CA.
85. Ostman, R. (Chair). (2007, October). *Nanoscale science program showcase*. Session conducted at the meeting of the Association of Science-Technology Centers, Los Angeles, CA.
86. Ostman, R. (2007, October). NISE Net programs. In S. Koch (Chair), *Nanotech studio tour: A showcase of stories to tell and props to help tell them*. Session conducted at the meeting of the Association of Science-Technology Centers, Los Angeles, CA.
87. Ostman, R. (2006, October). *Invigorating the front line*. Paper presented at the meeting of the Association of Science-Technology Centers.
88. Ostman, R. (2000, March). *The city and complexity: Change and continuity in Late Antique Volterra*. Paper presented at the meeting of the Society for American Archaeology, Chicago, IL.
89. Ostman, R. (1998, November). “The Tale of Bygone Years: Archaeology, nationalism, and Russian state formation.” Paper presented at the meeting of the American Anthropological Association, Philadelphia, PA.
90. Ostman, R. (1997, November). *Archaeology in context: History, nationalism, and the old Russian state*. Paper presented at the 30th Annual Conference of the Archaeological Association of the University of Calgary, Calgary, Canada.
91. Gray, T., Ostman, R., & Stanislawski, B. (1997, January). *The early medieval emporium at Wolin*. Poster presented at the meeting *Medieval Europe: Brugge 1997*, Bruges, Belgium.
92. Ostman, R. (1997). *Merchant graves and identity construction at Birka, a Viking Age town*. Paper presented at the meeting *Surviving at the Margins*, Rutgers University, New Brunswick, NJ.
93. Ostman, R. (1996, November). *Considering technology, gender, and social status in Viking Age Scandinavia*. Paper presented at the 29th Annual Conference of the Archaeological Association of the University of Calgary, Calgary, Canada.

Invited presentations and workshops

1. Ostman, R. (2021, May). Informal science education. Keynote talk for the virtual workshop *Public Engagement with Science and Philosophy of Science*. Organized by the University of Cincinnati Center for Public Engagement with Science with funding from the National Science Foundation.
2. Ostman, R. & Martin, P. (2019, May). Empowering communities to shape the future. New Tools for Science Policy Seminar Series. Center for Science, Policy & Outcomes, Arizona State University, Washington, DC.
3. Ostman, R. (2018, October). Informal STEM learning: Empowering communities to

- shape the future. Enlightening lunch presentation. School for the Future of Innovation in Society, Arizona State University, Tempe, AZ.
4. Devaney, S., Dzirasa, K., & Ostman, R. (2018, September). Alan J. Friedman Science Center Dialogues. Moderator for plenary panel discussion at the meeting of the Association of Science-Technology Centers, Hartford, CT.
 5. Ostman, R., Martin, P., & Colton, J. (2018, February). Innovation in informal STEM learning: Empowering communities to shape their own futures. Poster presented at Arizona State University Learning Innovation Showcase, Tempe, AZ.
 6. Ostman, R. & Colton, J. (2017, January). Science and society: Engaging museum visitors in conversations about current research and emerging technologies. Poster presented at Arizona State University Learning Innovation Showcase, Tempe, AZ.
 7. Finn, E., Gano, S., Guston, D., Lande, M., Ostman, R., & Wylie, R. (2016, May). *Transmedia Museum*. Posters presented at the Center for the Advancement of Informal Science Education (CAISE) Principal Investigator meeting, Arlington, VA.
 8. Bell, L., Herring, B., Martin, P., McCarthy, C., Ostman, R., & Semper, R. (2015, May). *Nanoscale Informal Science Education Network (NISE Network)*. Poster presented at the Center for the Advancement of Informal Science Education (CAISE) Principal Investigator meeting, Arlington, VA.
 9. Bell, L., Martin, P., McCarthy, C., Olney, V., Ostman, R., & Semper, R. (2014, May). *NISE Network: Building a National Network, Engaging the Public, and Increasing Professional Capacity*. Multiple posters presented at the Center for the Advancement of Informal Science Education (CAISE) Principal Investigator meeting, Arlington, VA.
 10. Ostman, R. (2012, December). *Nanotechnology and society: Educational products and professional resources*. Poster presented at the meeting of the National Science Foundation Nanoscale Science and Engineering Grantees Conference, Arlington, VA.
 11. Ostman, R. (2012, April). Developing Effective Hands-On Learning Experiences. Workshop presented at the GK-12 Fellows Program, Cornell University, Ithaca, NY.
 12. Horton, L., Long, S., & Ostman, R. (2011, November). Public outreach. In R. Ostman (Chair), *Museum-research center partnerships to engage the public*. Panel conducted at the Congress on Teaching Social and Ethical Implications of Research, Arizona State University, Tempe, AZ.
 13. Ostman, R. (2011, January). *NISE Network: Engaging the public in nano and society experiences*. Paper presented at the all-hands meeting of the Center for Nanotechnology and Society, Arizona State University, Tempe, AZ.
 14. Herring, B., Horton, L., Kusiak, F., Long, S., Ostman, R., & Sittenfeld, D. (2010, May). University-Museum Partnerships for Engaging the Public in Nano & Society, Consortium for Science Policy Outcomes, Arizona State University, Tempe, AZ.
 15. Ostman, R. (Chair). (2010, February). University-museum partnerships for engaging the

public in nano and society. Tabletop salon presented at the conference *The Rightful Place of Science*, Consortium for Science, Policy & Outcomes, Arizona State University, Tempe, AZ.

16. Ostman, R. (2008, December). "NISE Net Programs for Engaging the Public in Nano." Demonstration organizer and presenter. National Center for Learning and Teaching Global Workshop on Nanoscale Science and Engineering Education, Arlington, VA.
17. Koch, S., Liljeholm, A., & Ostman, R. (2007, December). *NISE Net exhibits and programs for engaging the public in nano*. Poster presented at the National Center for Learning and Teaching Workshop on Nanoscale Science and Engineering Education, Arlington, VA.

Other presentations and workshops

1. Weller, N., & Ostman, R. (2020, March). Building sustainable futures through museums and cultural institutions. Presentation at the Social Embeddedness Network Conference, Arizona State University, Tempe, AZ.
2. Ostman, R., Weller, N., Colton, J., Frias, R., & Martin, P. with additional guest presenters. (2019–2020). *Sustainable Futures: Sustainability in Science & Technology Museums Fellowship Program*. Blended professional development fellowship for informal educators, including online sessions, in-person intensive workshop, and online workspace. Three cohorts of 30 educators, each participating in a five-month program. Arizona State University, Tempe, AZ.
3. Sittenfeld, D., Ostman, R., & Jackson, A. (2019, September). *Making chemistry matter to your public audiences: Using hands-on activities to stimulate interest, relevance, and self-efficacy*. Online professional development workshop for museum educators, NISE Network.
4. Ostman, R., Sittenfeld, D., Beyer, M., Anderson, A., Weitzman, O., Galvan, P., Horwitz, D., & Hostetler, E. (2019, September). *Explore Science: Let's do Chemistry project*. Online professional development workshop for museum educators, NISE Network.
5. Ostman, R., Horwitz, D., Sittenfeld, D., & Jackson, A. (2018, October). *Explore Science: Let's Do Chemistry & Celebrate National Chemistry Week*. Online professional development workshop for museum educators, NISE Network.
6. Anderson, J., Benne, M., Coats, V., Ostman, R., & Sittenfeld, D. (2018, May). *Changing the conversation about climate*. Online professional development workshop for museum educators, NISE Network.
7. Sittenfeld, D., Ostman, R., & Jackson, A. (2018, April). *Explore Science: Let's Do Chemistry project*. Online professional development workshop for museum educators, NISE Network.
8. Ostman, R. & Martin, P. (2018, January). *National Informal STEM Education Network collaboration with NASA Science Mission Directorate*. Presentation at NASA

- Headquarters, Washington, DC.
9. Ostman, R., Colton, J., Spencer, J., Taylor, A., Cotman, E., & Fiordalis, V. (2017, December). *Frankenstein200 project*. Online professional development workshop for museum educators, NISE Network.
 10. Ostman, R., Colton, J., Lande, M., Spencer, J., & Taylor, A. (2017, October). *Frankenstein200: Museum partner workshop*. Professional development workshop for 35 museum educators, San Jose, CA.
 11. Ostman, R. & Martin, P. (2017, June). *Innovation in informal STEM learning*. Presentation at NASA Headquarters, Washington, DC.
 12. Ostman, R. (2015, May). *Museum and community partnerships*. Workshop presented at the network-wide meeting of the NISE Network, Saint Paul, MN.
 13. Ostman, R. (2015, May). *Small footprint exhibitions*. Workshop presented at the network-wide meeting of the NISE Network, Saint Paul, MN.
 14. Ostman, R., Bennett, I., Herring, B., & Wetmore, J. (2012, December). *Engaging the public in conversations about nano and society*. Workshop presented at the network-wide meeting of the NISE Network, Boston, MA.
 15. Barnes, H., Bennett, I., Cohn, S., Dilley, K., Hartshorn, S., Herring, B., Higbee, M., Jackson, A., Long, S., Nicholas, B., Pattison, S., Ostman, R., & Wetmore, J. (2012, September–October). *Engaging visitors in nanotechnology and society*. Workshops presented in Berkeley, CA, Houston, TX, Portland, OR, and Saint Paul, MN.
 16. Ostman, R. (2012, January). *Universal design*. Presented at the program workshop for the NISE Network, Portland, OR.
 17. Ostman, R. (2011, September). *NISE Network update*. Presented at the regional meeting for the NISE Network, Ithaca, NY.
 18. Ostman, R. (2011, September). *Societal and ethical implications of nanotechnologies*. Roundtable presented at the regional meeting for the NISE Network, Ithaca, NY.
 19. Ostman, R., Ellenbogen, K., Garcia-Luis, V., Johnson, M., Livingston, T., Martin, P., Petersen, G., Porcello, D., & Reich, C., (2011, January). *Societal and ethical implications of nanotechnology*. Workshop planned and delivered for the NISE Network, Portland, OR.
 20. Ostman, R., Bennett, I., Correa, J., Liljeholm, A., Lisensky, G., Long, S., & Ostfeld, K. (2010, October). *Nano 101*. Workshop presented at the network-wide meeting of the NISE Network, San Francisco, CA.
 21. Ostman, R. (2009, September). *Educational products*. Discussion section at the NISE Network Annual Meeting, San Francisco, CA.
 22. Ostman, R. (2009, July). *NISE Net programs*. Workshops facilitated at the Marian Koshland Science Museum and the Diversity, Equity, and Access meeting of the NISE

Network, Washington, DC.

23. Ostman, R., Grack Nelson, A., Liljeholm, A., Miller, T., Pollard, K., Zenner, G., et al. (2008, July). Planning and delivery for NISE Network regional workshops, Ithaca, NY, Portland, OR, Raleigh, NC, and Saint Paul, MN.
24. Ostman, R. (2008, March). *Snowflakes to nano-ice: Universal design guidelines and techniques for making programs inclusive*. Presented at the program workshop for the NISE Network, Portland, OR.
25. Ostman, R. (2007, December). *Snowflakes to nano-ice: Self-assembly in nature and nanotechnology*. Program presented at the NISE Network Accessible Programs Workshop, Boston, MA.

SERVICE & OTHER PROFESSIONAL ACTIVITIES

Professional service

Board member. Visitor Studies Association. Immediate past president and member of the board of directors (July 2019–2021). President of the board of directors (July 2017–2019). President-elect and member of the board of directors (December 2015–June 2017).

Editorial board member. *Dimensions*, published by the Association of Science and Technology Centers (2019).

Member. Leaders in Science and Technology Engagement Networks (LISTEN), sponsored by the Association of Science and Technology Centers and Kavli Foundation (2020 to present).

Advisory committee member. *Empowering informal educators to prepare future wireless generations through a spectrum of STEM learning opportunities about radio* (NSF #2005784, PI S. Hsi), Concord Consortium (2020-2023).

Advisory committee member. *Conference: Interdisciplinary perspectives on imagination in informal STEM environments*, Museum of Science (NSF#1906899, PI R. Kipling).

Advisory committee member. *LabVenture: Revealing Systemic Impacts of a 12-Year Statewide Field Trip Program* (NSF #1811452, PI L. Peake), Gulf of Maine Research Institute (2019-2023).

Liaison to NISE Network and museum practitioners. *Center for the Advancement of Informal STEM Education (CAISE)*, the resource center for NSF's Advancing Informal Science Learning (AISL) program (NSF #1612739, PI J. Bell), Association of Science and Technology Centers (2016–2021).

Committee member. *Focus on Sustainability* initiative. Materials Research Society (2012–2016).

University service

Personnel committee. College of Global Futures (AY 2021–2022).

Faculty annual review committee. School for the Future of Innovation in Society (AY 2017–2018, 2020–2021).

Faculty reviewer. Graduate College Completion Fellowship (AY 2019–2020).

Faculty reviewer. Interdisciplinary Enrichment Fellowship (AY 2020–2021).

Grant review

Institute for Museum and Library Services

National Institute of Health

National Science Foundation

Journal review

Citizen Science: Theory and Practice

Leonardo

Sustainability

Professional society review

American Alliance of Museums (annual meeting)

Association of Children’s Museums (annual meeting)

Association of Science and Technology Centers (awards)

Visitor Studies Association (annual meeting)

Other professional service

Facilitator. *Developing and Sustaining Equitable, Knowledge-Building Partnerships.* 2021 National Science Foundation Advancing Informal STEM Learning (AISL) Awardee Meeting (October 19–21, 2021).

Review committee. *Communicating the Future: Engaging the Public in Basic Science* conference, organized by Science Public Education Partnership and supported by The Kavli Foundation and the U.S. Department of Energy (July 27–28, 2021).

National summit participant. *New Frontiers in Science, Technology, Learning, and Community Engagement Toward a More Equitable Tomorrow: Virtual National Summit* organized by the Association of Science and Technology Centers (ASTC) (October 19–20, 2020).

Workshop participant. *Community Science Models, Attributes, and Principles*, facilitated by the Association of Science and Technology Centers (ASTC) Community Science initiative, supported by the Chan-Zuckerberg Initiative and the Gordon and Betty Moore Foundation (September, 2020).

Workshop participant. *Public Dialogue and Deliberation*, facilitated by the Association of Science and Technology Centers (ASTC) Community Science initiative, supported by the Chan-Zuckerberg Initiative and the Gordon and Betty Moore Foundation (September, 2020).

Workshop participant. *Science and Public Engagement*, facilitated by the Day One Project, an initiative of the Federation of American Scientists, in partnership with Advancing Research Impact in Society (ARIS) and Leaders in Science and Technology Engagement Networks (LISTEN), with support from The Kavli Foundation (August, 2020).

Workshop discussant. *Civic Science Fellows Program*, supported by The Burroughs Wellcome Fund, the Chan Zuckerberg Initiative, The David and Lucile Packard Foundation, the Gordon and Betty Moore Foundation, The Kavli Foundation, and the Rita Allen Foundation (July, 2020).

Workshop facilitator. Research and Practice Task Force, *CAISE (Center for the Advancement of Informal Science Education)* (NSF#1612739, PI J. Bell) (December, 2019).

Meeting participant. *Meta Network Workshop: Connecting Science Engagement and Communication Network*, sponsored by The Kavli Foundation, the Gordon and Betty Moore Foundation, The David and Lucile Packard Foundation, and the Rita Allen Foundation (October, 2018).

Meeting participant. *Support Systems for Scientists' Communication and Engagement: An Exploration of the People and Institutions Empowering Effective Impact*, sponsored by The Kavli Foundation, the Gordon and Betty Moore Foundation, The David and Lucile Packard Foundation, and the Rita Allen Foundation (October, 2017).

Meeting participant. *Dimensions of Public Engagement with Science* (NSF #1010831, PI L. Bell). Field meeting (May, 2011).

Professional development and continuing education

Locating a Personal Voice in Long Form Documentary Projects, International Center for Photography (Fall, 2021).

Advanced Digital Photography, Arizona State University (Fall, 2021).

Digital Photography I and II, Arizona State University (Summer, 2021).

Reflecting on Practice, Lawrence Hall of Science, online (Spring, 2021).

Design Futures Training, Institute for the Future, Palo Alto, CA (December 10–11, 2019).

Research + Practice Workshop, Research + Practice Collaboratory, Washington, DC (July 10–12, 2017).

Professional memberships

Association of Children's Museums

Association of Science and Technology Centers

Ecsite – European Network of Science Centres and Museums

Visitor Studies Association
