

DONALD McLAIN BURT

School of Earth and Space Exploration, Arizona State University
Box 871404, Tempe, AZ 85287-1404, USA

Tel: 480/965-6180 FAX: 480/965-8102 E-mail: dmgburt@asu.edu

Education:

Princeton University, 1961-1965, A.B. 1965, Geology, *Summa Cum Laude*.
Harvard University, 1965-1970, A.M. 1968, Ph.D. 1972, Geological Sciences. Dissertation:
Mineralogy and Geochemistry of Ca-Fe-Si Skarn Deposits.

Professional Employment and Activities:

Fellow, Geophysical Laboratory, Carnegie Institution of Washington (D.C.), 1970-1972 (Experimental and theoretical petrology)
Visiting Lecturer, Vening Meinesz Laboratory, Univ. of Utrecht, The Netherlands, 1972-1973 (Fluorine equilibria in skarns and greisens)
J. Willard Gibbs Instructor in Geochemistry, Yale Univ., 1973-1975
Assistant Professor of Geology, ASU, 1975-1979
Associate Professor of Geology, ASU, 1979-1983
Professor of Geology, ASU, 1983-Present
Visiting Scientist, Lunar and Planetary Institute, Houston, TX, 1987-1988 (Lunar and space mining technologies)
Interim Department Chair, ASU, 1995 (Fall)
Geology Field Camp Director, ASU, 1995-2000 (Geologic mapping and remote sensing)
Visiting Scientist, Lunar and Planetary Institute, Houston, TX, 2001-2002 (Mars surface and subsurface mineralogy and geochemistry)

Publications: See lists below.

Grants: Numerous; none current.

Research Experience: Geology of mineral and energy deposits; crystal chemistry and phase equilibria of complex systems; mineralogy and geochemistry of lithophile elements; natural resource economics and sustainability, digital photography.

Courses Taught (general areas): Mineral and Energy Resources, Ore Deposits, Mineralogy, Igneous and Metamorphic Petrology, Aqueous Geochemistry, Physical Geology, Historical Geology, Geology Field Camp.

Field Experience (summer, mainly): Princeton Univ.(field camp, then vertebrate paleontology, WY and MT, 1962), White Pine Copper Co. (geologic mapping, MI, 1963), U.S. Geological Survey (geologic mapping, CO, 1964), AMAX Exploration (geochemical prospecting, WY and MT, 1965 and 1966), dissertation research (skarn deposits: southwest USA, 1967 and 1968, Peru, 1969, Japan, 1970). Varied U.S. Government and company-sponsored field research in western USA (1978, 1979, 1980), USSR (1981 and 1983), China (1981), Antarctica (1982), and Mexico (1983-1990; 2008). ASU Geology Summer Field Camp (instructor, 1980-1995; director 1995-2000).

Professional Affiliations: Materials Research Soc., Am. Ceramic Soc., Am. Geophys. Union, Geochem. Soc., Mineral. Soc. Am. (Fellow), Mineral. Assoc. Canada, Soc. Econ. Geologists (Fellow), Internat. Assoc. Genesis of Ore Deposits (IAGOD), Soc. Mining, Minerals & Exploration (SME), Geol. Soc. Am. (Fellow), Am. Assoc. Advancement of Science.

Honors, Awards, and Offices: Phi Beta Kappa 1965; Sigma Xi 1965; Woodrow Wilson Fellow (hon.) 1965-1966; NSF Graduate Fellow 1965-1968, 1969-1970; Assoc. Editor, American Mineralogist 1977-1980; new mineral burtite, $\text{CaSn}(\text{OH})_6$, 1981; Nat. Acad. Sci.-sponsored research visitor to China (3 mo., 1981) and USSR (1 mo., 1981; 1.5 mo., 1983); Registered Professional Geologist, State of Arizona 1982-Present; Vice President, Working Group on Skarn, IAGOD, 1978-1986; Short Course Lecturer for Mineral. Assoc. Canada 1982, 1998; for Mineral. Soc. Am. 1984, 1988, 1989; for Geol. Assoc. Canada 1994; Editorial Adviser, Resource Geology, 1998-2005.

Languages: English; Spanish, French, German, Russian; some Dutch, Italian, Japanese.

Personal Data: U.S. citizen, married, 2 grown children.

95. Burt, D.M. and Knauth, L.P., 2016, Terraforming ancient Mars: comment published as eLetter to *Science*, <http://science.sciencemag.org/content/350/6257/aac7575.e-letters/>.

D.M. Burt – Publications (abstracts and reviews – last 12 years only)

86. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2005, Origin of layered rocks, salts, and spherules at the Opportunity landing site on Mars: No flowing or standing water evident or required: *Lunar and Planetary Science*, v. 36, Abstr. #1527.
87. Burt, D.M., 2005, Using an inexpensive digital camera to photograph Mars-analog materials at the scale of the MER Microscopic Imager, and at other scales: *Lunar and Planetary Science*, v. 36, Abstr. #1705.
88. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2005, Impact-derived sedimentary rocks: How common on Mars? *Geol. Soc. Am., Abstracts with Programs*, v. 37, no. 7, p. 513, Paper 233-10.
89. Knauth, L.P., Burt, D.M., and Wohletz, K.H., 2006, Impact surge as the simplest of the proposed hypotheses for the origin of sediments at the Opportunity landing site on Mars: *Lunar and Planetary Science*, v. 37, Abstr. #1869.
90. Burt, D.M., Wohletz, K.H., and Sheridan, M.F., 2006, "Water-laid tuff" of the Utah desert and similar surge deposit misinterpretations: A possible lesson for Mars?: *Lunar and Planetary Science*, v. 37, Abstr. #2295.

91. Burt, D.M., 2006, Using an inexpensive digital camera to take Mars-analog photographs at near-infrared wavelengths: *Lunar and Planetary Science*, v. 37, Abstr. #2326.
92. Burt, D.M., Knauth, L.P., Wohletz, K.H., and Sheridan, M.F., 2006, History of surge deposit misidentification at Spor Mountain, Utah and elsewhere: A cautionary message for Mars: *Volcanic Flows and Falls: A Conference to Honor Professor Michael F. Sheridan*, Buffalo, NY, May 11-12 (Abstr. published on CD by SUNY-Buffalo).
93. Burt, D.M., Knauth, L.P. and Wohletz, K.H., 2006, Impact excavation of sulfides that then weather into sulfates: An astrobiology-friendly explanation for acid sulfate formation on Mars: *Martian Sulfates as Recorders of Atmospheric-Fluid-Rock Interactions*, Lunar and Planetary Institute, Houston, Abstr. #7004.
94. Burt, D.M., 2006, Intrinsic acidity of jarosite and other ferric sulfates as an indicator of how they form: *Martian Sulfates as Recorders of Atmospheric-Fluid-Rock Interactions*, Lunar and Planetary Institute, Houston, Abstr. #7005.
95. Burt, D.M., Knauth, L.P. and Wohletz, K.H., 2006, Impact dispersal and weathering of sulfides on early Mars: A source of acid sulfates and a possible habitat for microbes: *Geol. Soc. Am., Abstracts with Programs*, v. 38, no. 7, p. 308, Paper 123-8.
96. Burt, D.M. and Knauth, L.P., 2007, Impacts, ice, and salts on Mars: How brine flow in young gullies and elsewhere could be related to impact cratering: *Lunar and Planetary Science*, v. 38, Abstr. #2054.
97. Burt, D.M., Knauth, L.P. and Wohletz, K.H., 2007, Sedimentary concretions vs. impact condensates: Origin of the hematitic spherules of Meridiani Planum, Mars: *Lunar and Planetary Science*, v. 38, Abstr. #1922.
98. Knauth, L.P., Bryan, S., Burt, D.M., and Wohletz, K.H., 2007, Impact surge on Mars: *Lunar and Planetary Science*, v. 38, Abstr. #1757.
99. Burt, D.M., Knauth, L.P. and Wohletz, K.H., 2007, Martian impact cratering and martian layered sediments: *10th Mars Cratering Consortium Meeting*, Flagstaff, AZ, Abstr. #1005.
100. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2008, Martian gullies and salty sidewalks: *LPI Workshop on Martian Gullies, Theories and Tests*, Abstr. #8035.
101. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2008, Sedimentation by impact cratering on Mars: *Lunar and Planetary Science*, v. 39, Abstr. #2067.
102. Royer, D., Burt, D.M., and Wohletz, K.H., 2008, The Mars spherule size distribution and the impact hypothesis: *Lunar and Planetary Science*, v. 39, Abstr. #1013.
103. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2008, Mars and the Late Heavy Bombardment: *11th Mars Cratering Consortium Meeting*, Flagstaff, AZ, Abstr. #1105.
104. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2008, The Late Heavy Bombardment and Mars: *Geol. Soc. Am., Abstracts with Programs*, v. 40, no. 6, p. 238, Paper 127-3.
105. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2008, The Late Heavy Bombardment: Possible influence on Mars: *LPI Workshop on Early Solar System Impact Bombardment*, Abstr. #3030.
106. Garvie, L.A.J., Burt, D.M., and Buseck, P.R., 2009, A microscopists view of desert varnish from the Sonoran Desert: *Lunar and Planetary Science*, v. 40, Abstr. #1344.
107. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2011, Mars and the Late Heavy Bombardment, 2011 Update: *2nd Planetary Cratering Consortium Meeting*, Flagstaff, AZ, Abstr. #1108.
108. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2013, Blast beds on Mars, *4th Planetary Cratering Consortium Meeting*, Flagstaff, AZ, Abstr. #1313.
109. Burt, D.M. and Knauth, L.P., 2013, Outcrops of alluvial fans in the ASU area, Tempe, Arizona and their application to teaching about the MSL Mission, Mars. *Geol. Soc. America, Annual Meeting*, Denver, CO, Paper 192-6, *GSA Abstracts with Programs*, v. 45, no. 7, p. 470.
110. Burt, D.M. and Knauth, L.P., 2014, Blast beds and other sedimentary rocks deposited by mass movements in Gale Crater: Evidence of impacts, *5th Planetary Cratering Consortium Meeting*, Flagstaff, AZ, Abstr. #1415.
111. Burt, D.M., Knauth, L.P., and Wohletz, K.H., 2015, Blast beds at the rover sites on Mars: *Lunar and Planetary Science*, v. 46, Abstr. #2838.
112. Burt, D.M. and Knauth, L.P., 2016, Evidence for an impact origin for sediments in Gale Crater, Mars: *Lunar and Planetary Science*, v. 47, Abstr. #2726.
113. Burt, D. M. and Knauth, L.P., 2016, The mystery water of Mars (Gale Crater): *Geol. Soc. America, Annual Meeting*, Denver, CO, Paper 141-11, gsa.confex.com/gsa/2016AM/webprogram/Paper284011.html.
114. Burt, D.M. and Knauth, L.P., 2017, Where impact-caused density currents came to die: Gale Crater?: *8th Planetary Cratering Consortium Meeting*, Flagstaff, AZ, Abstr. #1715.
