### Other ASU Teaching Activities

- 2015-2018 *Osher Lifelong Learning Institute at Arizona State University*: I have taught a short course for community members, *A Geological Narrative of Arizona and the Southwest*, at Tempe Public Library, Tempe, AZ, in Spring 2015, 2016, 2017, and 2018; and a colloquium, *Geologic History of Grand Canyon*, at Maravilla, Scottsdale, AZ, Summer 2017.
- 2007 *Physics of Earth and Planetary Surfaces and Interiors (PEPSI) Seminar Series*: I organized and ran this weekly seminar series in the School of Earth and Space Exploration during the Spring 2007 semester.

### Curriculum and Program Development

- Created or co-created and piloted these new courses for the School of Earth and Space Exploration, School of Sustainability, and Mary Lou Fulton Teachers College at ASU:
  - Earth Science in Arizona and the Southwest* (GLG 301/SOS 372; 3 credit major elective course); a Southwest place-based Earth system science and environmental geoscience course; it was approved for credit toward the Science and Society requirement in the College of Liberal Arts and Sciences and is cross-listed in the ASU School of Sustainability.
  - Teaching Earth and Space Sciences* (SES 480; 3 credit major seminar course); a revised research-based instructional methods course for pre-service teachers.
  - Exploration of Science Teaching* (SES 111/SED 111; 1-credit practicum); this course affords potential pre-service teachers the opportunity to experience student teaching early in the program. Co-developed with Julie Luft.
- Directed the design and 2006-07 implementation, and the 2009-2010 revision, of the *Bachelor of Arts in Education/Initial Teacher Certification degree program in Secondary Earth and Space Sciences Education* (a joint degree with the Mary Lou Fulton Teachers College).
- Developed and piloted new courses *Exploration of Science Teaching*, *Teaching Earth and Space Sciences*, *Situating Earth and Space Sciences in the Southwest*, and *Connecting Biology, Geology, and Mathematics* under the auspices of the Center for Research on Education in Science, Mathematics, Engineering, and Technology (CRESMET) at ASU. The latter two courses are specifically aimed at in-service middle-school and high-school teachers. I taught the two courses for in-service teachers in school districts in Chandler, Mesa, Superior, and San Carlos Apache Nation, AZ. The latter two are high-need, minority-majority school districts.
- Infused Southwestern place-based teaching and learning approach into large-lecture *Introduction to Physical Geology* (GLG 101) and *Introduction to Historical Geology* (GLG 102) courses in SESE to enhance relevance to students.
- Collaborator in the ASU *College of Liberal Arts and Sciences Information Infusion Initiative* (CLAS I<sup>3</sup>) during 2003 and 2004, helping to develop Information Literacy standards for CLAS curricula and disseminating Information Literacy resources to colleagues.
- Guided implementation of *Blackboard course management software* and *student response systems* (“clickers”) by School of Earth and Space Exploration faculty, under the auspices of the CLAS I<sup>3</sup>. Presented several day-long Blackboard training sessions for faculty colleagues. Installed response-system receivers in lecture rooms with funding from a CLAS *Quality of Undergraduate Instruction* grant.
